

Botus Fleming and Hatt Emergency Response (BOTHER) Group.

Given the international recognition that the world is facing a Climate Emergency, that Cornwall Council has declared its intention to become carbon neutral by 2030, and that Botus Fleming Parish Council has declared a Climate Emergency, we have taken as our mission:

To support the residents of our community in efforts to minimise environmental damage and to promote endeavours to achieve a quality of life that is sustainable for present and future generations.

In order to realise this aim we will seek to:

- Encourage all members of the community to become involved in local initiatives to help Cornwall Council's achieve the above aim.
- Provide information about practical steps that we can all take to reduce our carbon footprint.
- Promote schemes such as car-sharing, increased use of public transport and switching to providers of green energy.
- Where appropriate, join with neighbouring communities to achieve economies of scale and effort.
- Work in partnership with Botus Fleming Parish Council in initiatives to achieve Cornwall Council's carbon neutral by 2030 goal.
- Actively promote the five key principles of waste management:
 1. Refuse
 2. Reduce
 3. Re-use
 4. Recycle
 5. Rot
